Dear Sirs!

Today, Ukraine is facing extremely difficult trials. The Russian aggressor brought down all the power of its military potential on our Motherland. Like the Nazis, without declaring war, started the bombing of our cities. The Russian army, recruited on the outskirts of Russia in the form of a horde, rushed to Kyiv from the north, from the Belarusian border. It happened that on the way of this horde was the Kyiv Golf Club, GolfStream, which was one of the first to take on the onslaught of the aggressor. The entire property of the Club suffered severe damage, which marauding Russian soldiers further worsened by stationing on the premises with over 300 military units and the entire territory was covered with trenches

and lines of defense. The clubhouse was completely looted, the hotel complex was burned down, and there are casualties among our employees. The entire technical park was either burned or looted. Gasoline and diesel storage facilities were destroyed. Russian marauding soldiers plundered warehouses with seed, fertilizers, and spare parts. Among the things that were stolen were the client's club cars, golf equipment, household equipment, office equipment, and many other things.

GolfStream today has the largest 36-hole course in Ukraine, this is the only champion course in Ukraine, located in the capital of our country. The club is the pride of our federation and the pride of the whole of Ukraine. For many years in a row and until today, GolfStream was positioned as the best golf club in Ukraine according to the "Golf Digest" ranking. An overwhelming number of golfers, coaches, and greenkeepers have grown up on our fields. Over the 14 years of its existence, the Club has become truly a "training center" for the coaching of athletes and specialists in the golf industry.

Despite the ongoing hostilities on the territory of Ukraine with the belief in a complete victory over the Russian aggressor, the team of the club is already facing the task of restoring the infrastructure of the club. We believe that after the victory, our Ukrainian golf industry will receive a new impetus in its development, even more people will become involved in this wonderful sport, and we will definitely have world-class players.

Currently, the team of the club is doing everything possible to preserve the club, but, unfortunately, the funds and capabilities for everything are sorely lacking. Of course, the full restoration of the club will require many funds and an extensive period of time, but the top priority is the restoration of the golf club's courses. If urgent measures are not taken today on this issue, the fields will be lost for a long time and their restoration will require much more financial resources and time.

Realizing the complexity of the current moment, we turn to you with a request for help. We will be glad and grateful for any of your support. We will inform about all expenditures from charitable foundation.

In turn, the team of the club, together with the Ukrainian Golf Federation, will do everything possible to revive the Kyiv GolfStream Golf Club and ensure the holding of world-class competitions.

Perhaps, with your support, we will be able to organize a joint tournament in the future, which will confirm to the whole world the desire of Ukraine to develop as a peace-loving power, based on friendship and cooperation.

A trust fund has been set up to raise funds.
